

Archiving an Icon

In June 2016 GALA archivist Linda Chernis attended the 2016 LGBTQ Archives, Libraries, Museums and Special Collections (ALMS) conference in London, United Kingdom. She presented a paper based on one of GALA's collections, titled: *Archiving an Icon: The Simon Nkoli Collection*. The conference was an important event for networking and connecting with other queer archives from around the world, and learning from their experiences.
